

# SUPRABHAT KUMAR

JAVA | SPRING BOOT | POSTGRES SQL

9473300745 | suprabhat.kumar.scb@gmail.com | linkedin.com/in/suprabhat-kumar-scb | github.com/SuprabhatKumar99

## PROFESSIONAL SUMMARY

Software Engineering student pursuing a **B.Tech in Information Technology**, with hands-on experience in **Java, Spring Boot, PostgreSQL, HTML, CSS, and JavaScript**. Experienced in developing backend and web applications using REST APIs, object-oriented programming, database integration, authentication, authorization, and layered architecture. Strong foundation in software development, problem-solving, database management, and building maintainable web applications.

## TECHNICAL SKILLS

**Programming:** Java, JavaScript, SQL

**Backend:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs

**Database:** PostgreSQL, MySQL

**Frontend:** HTML5, CSS3, JavaScript

**Core Concepts:** Object-Oriented Programming, Data Structures & Algorithms, CRUD Operations, RESTful APIs, Authentication & Authorization, Database Design, MVC, Layered Architecture

**Tools:** Git, GitHub, Maven, Postman

## PROJECTS

### CINEMAX - Online Movie Booking & Hall Management System

**Tech Stack:** Java, Spring Boot, PostgreSQL, Angular, HTML, CSS, JavaScript

- Developed a full-stack movie booking and hall management application using **Spring Boot and Angular**.
- Implemented user authentication, movie, theater, screen, show, seat, and booking management with **seat availability and locking**.
- Designed RESTful APIs and integrated **PostgreSQL** for managing users, movies, bookings, payments, and related entities.
- Implemented payment workflows, booking cancellation, validation, exception handling, and administrative management.
- Built responsive frontend interfaces in **Angular, HTML, CSS, and JavaScript** and integrated them with Spring Boot REST APIs.

## TASK MANAGEMENT SYSTEM

**Tech Stack:** Java, Spring Boot, MySQL, Angular, HTML, CSS, JavaScript

- Developed a full-stack task management application using **Spring Boot and Angular**.
- Implemented task creation, updating, deletion, retrieval, comments, task groups, and member management.
- Implemented secure user authentication and authorization using **Spring Security and JWT**.
- Designed REST APIs and relational database entities for users, tasks, groups, comments, notifications, and relationships.
- Built Angular-based interfaces for task management and integrated the frontend with Spring Boot backend services.

## EDUCATION

**Currently Pursuing B.Tech in Information Technology, Siliguri Institute of Technology 2023 - 2027**

**Class XII - New Horizon School, Bhagalpur, Bihar 2021 - 2023**

**Class X - New Horizon School, Bhagalpur, Bihar 2020 - 2021**

## EXPERIENCE

### Zidio Development - Internship

#### One Month Internship Program

15 February 2025 - 15 March 2025

- Completed a one-month software development internship program.
- Gained practical exposure to software development workflows and project implementation.

## CERTIFICATIONS

- J.P. Morgan - Software Engineering Job Simulation - Forage
